**Subject:** RE: Concerning Your Case

Hi Monika,  
I'm sorry to hear that. It was a pleasure working with you on this case.

Before I can work with a new consulting company, I need the PMN to be updated with the technical contact from the new company. This would need to be done through CDX.

Best,  
Gloria

---

**Sent:** Monday, September 11, 2017 12:11 PM  
**To:** Odusote, Gloria <odusote.gloria@epa.gov>  
**Subject:** RE: Concerning Your Case

Dear Gloria,

Thank you for your kind message. However the further communication regarding this case may come from another consulting company now not from Envigo. I have been told that you will be made aware that the new consulting company is taking over work on this case. The new company is based in US therefore it is more convenient for our client.

Please can you let me know if I need to submit anything via CDX with respect to this change?

Thank you.

Kind regards  
Monika

**To:** Monika Szablicka <monika.szablicka@envigo.com>  
**Subject:** RE: Concerning Your Case

Hi Monika,  
I put in the 15 day suspension. If you could work towards putting in the suspension through CDX, that would be best but if your hands are tied for now, I can wait.

Best,  
Gloria

---

**From:** Monika Szablicka [mailto:monika.szablicka@envigo.com]  
**Sent:** Tuesday, September 5, 2017 11:09 AM  
**To:** Odusote, Gloria <odusote.gloria@epa.gov>  
**Subject:** RE: Concerning Your Case

Dear Gloria,

I am sorry it takes long to send the request via CDX for the latest suspension but as it is required now to provide substantiation for each CBI claim I have to wait for my client to provide me his responses. I am afraid that the system will not let me send the Support form until I have the substantiation document.

Is this acceptable please?

Thank you.  
Kind regards  
Monika

**Subject:** RE: Concerning Your Case

Hi Monika,  
Thank you for the update and I will wait until you have more information.

Also, management is asking that new information including requests for suspension past 15 days be sent through CDX, so please enter the suspension through CDX. It can be as long as you need it to be and I can rescind the suspension days if something changes on the company's end.

Best,  
Gloria

Hi Monika,

If you provide information that there is no inhalation and environmental exposures, the testing would no longer be upfront.

You would still need to respond to the action letter, checking the option that you are providing more information and giving us the time to review the information and write the consent order.

Best,  
Gloria

**Subject:** RE: Concerning Your Case

Dear Gloria,

Please can you let me know when it will be convenient for you so I can call you?

I will be in a meeting until 11am UK time and then between 12.30-14.00pm UK time.

Thank you.  
Kind regards  
Monika

**Subject:** RE: Concerning Your Case

Hi Monica,  
In answering this, I would have to explain the test. Since that is CBI, it would probably be best to explain this over the phone.

Best regards,  
Gloria

**Subject:** RE: Concerning Your Case

Dear Gloria,

Thank you for your kind assistance. Our client is considering the regulatory options and they have some queries. Please can you help us understanding the engineering report, i.e. is there a specific part which we should pay attention to?

In the EPA action letter it is stated that there is a concern for acute toxicity however we have submitted the test report on acute toxicity (please refer to Attachment no. 12 in the original PMN). Additionally, and also as stated in the engineering report the compound does not raise concerns regarding mutagenicity or genetic toxicity in vivo and is

unlikely to be carcinogenic. We would really appreciate if you could give us more details as to why the OEDC 422 and OECD 486 are required?

Our client is also considering an analog substance which could possess any data on the health effects information but it is difficult to identify the appropriate analog.

Another question which our client has is whether we can change the application without selecting these 3 options?

Please can you give us your comments regarding the above?

Thank you.

Kind regards  
Monika

**To:** Szablicka, Monika

**Cc:** Elliott, Melissa

**Subject:** RE: Concerning Your Case

Hi Monika and Melissa,

Yes, you still have the current suspension and since we have been talking, the suspension applies to the action letter as well. Please let me know if there is any way that I can help speed up the process. With the current changes in the EPA, wrapping up the review time for these chemicals has become a priority.

Best regards,  
Gloria Odusote

**Subject:** RE: Concerning Your Case

**Importance:** High

Dear Gloria,

I am aware about the two separate 15 day suspensions to allow us for any review and actions from the engineering report. However I think the 30 days response to the EPA action letter (dated Mar27, 2017) ends today please can you therefore confirm that the extension also applies to this? Unfortunately our client is still considering their final decision.

I appreciate your response at your earliest convenience.  
Thank you.

Kind regards  
Monika

**Subject:** RE: Concerning Your Case

Dear Gloria,

Thank you very much for contacting me with respect to our submission.

I will summarize your concerns with regards to the substance and will inform our client respectively while waiting for the official EPA letter.

If I understood correctly, may I request the engineering controls report to be sent to us via fax?  
The number for the fax is: (0044)01480 892362.

Thank you.

Kind regards

Monika
